

Accept a fraternal message of peace and respect from the people of Nicaragua and from the President of the National Assembly Dr. Gustavo Porras Cortés. The National Assembly of the Republic of Nicaragua guides its parliamentary activity on the subject under discussion as of the Political Constitution that highlights as indispensable principles Peace and the Establishment of a just International order based on Friendship Relations Complementarity Solidarity between peoples and Reciprocity between States.

Nicaragua recognizes the principle of a peaceful solution to resolve disputes through the means offered by International Law. We defend the principles of Independence and Sovereignty as established by the United Nations Charter, so we continue to demand an end to all interference in our internal affairs.

Once again we condemn the criminal blockade against the brotherly Republic of Cuba Nicaragua; we reject all coercive economic measures to try to break the will and spirit of Freedom and Sovereignty. We assure and reiterate that in Nicaragua we are devotees of peace. We Strengthen Security, We defend and respect Human Rights in an Integral way, regardless of the Media Campaigns that, using Fake News, want to impose negative perceptions against our country and our government.

As members of the IPU we will increase our efforts to adopt measures that restrain global warming to ensure the future of the earth and its ecosystems, humanity and the lives of present and future generations. Based on principles of common but differentiated responsibilities, we will continue to make our best social and prevention economic efforts to face climate change.

We will maintain our willingness to continue fighting terrorism, to combat transnational organized crime and the illicit trafficking of weapons and ammunition and the actions aimed at controlling drug abuse, emphasizing the structural causes that originate it. As a country we will continue to be a factor of stability, peace and security for the region and we will be firm advocates of non-interference in the internal affairs of States and their right to self-determination.

I would like to extend my gratitude to Mrs. Maja Giokovic and UIP President Gabriela Cuevas, for the organization and attention in this Assembly held in this beautiful city of Belgrade.

Ms. Maritza Espinales

Deputy

National Assembly of the Republic of Nicaragua
