# Challenges in determining what to measure

What shall we monitor and evaluate?

A set of **comparison processes** between:

- What was *expected*
- What was the *result*
- What was *effective*
- What was *learned*

✓ Accountability
✓ Flexibility and adaptation
✓ Organizational learning
✓ Future improvements
✓ Ownership

"Navigating" the Challenges of M&E

3 main elements that complicate this process :

1. "Operationalization problem

2. Information entanglement

3. Scope of M&E

…To sum it up… create a system

1. Make our Programme's indicators operational

2. Have all key M&E information available and accessible

3. Have a clear M&E vision
