**Excellencies,  
Distinguished Speakers, Ladies and Gentlemen!**

I am glad to have the honor of sharing this magnificent meeting  
Let's thank the president of the IPU and other Swiss city officials for hosting the  
138th IPU Union Summit.

**Honest Audiences and Presidents of the Parliament!**

Immigration is an important phenomenon that has become a dilemma in this era of life, while migration was a common phenomenon that people travel from one place to other for their own well-being, but now the opposite is the case, around 200 countries in the world There is a powerful force with military and political power, in this case, there are a handful of countries that are fighting for internal and external factors, and these wars have lasted for decades, and as a result, people have come up with their important demands, including civil, political, , Their social, economic and legal background, and the conditions that people have to emigrate and leave their home land.

If I take it seriously, it will be shown that all immigration was based on cruel sovereignty, war, insecurity, and the plundering of raw material that people have .migrated from one place to another for their protection  
Man is a creature that Allah has compelled him to do at his own expense, when he encounters such cases, he has to leave his original home.

**Dear audience!**

The world recognizes this phenomenon as a fundamental problem, hence the Universal Declaration of Human Rights, the Cairo Declaration (Islamic Human Rights), the 1920 Convention of Geneva, the 1967 Protocol, the goals of the sources that proclaim the rights of immigrants.

Immigration has now become a global issue and the whole world is trying and solving the problem, but there is still a problem.

امریت ترجمانان

Today, the large number of immigrants is made up of Syria, Iraq, Sudan, Yemen, Libya and Afghanistan, whose cause of their migration is war and insecurity. Today, our country has been forced to emigrate for decades of war, and the millions Afghans are in Neighboring countries are being housed and repeatedly pressured by neighboring countries, but they still live in difficult conditions.

**Dear Participants!**

The international community must play its human responsibility in relation to immigration and strongly support the rule of law, religion and other human rights in all countries, and should not allow the granting of the basic rights of immigrants and in contravention of international law, be forced to be deported .

My message to immigrant settler's countries, especially Afghan refugees, is to deal with them in accordance with the Declaration of Human Rights and the provisions of the Universal Declaration of Human Rights and the Migration Protocols, and provide them with low-quality rights, and prepare the conditions for them to live like other peoples.

**In the end**, I declare my strongly support to refugees who live all around the world, and I expect all immigrants to enjoy their rights, and I incapably request from Almighty Allah, to our dear Afghans provide security and protect the lives of our people, and to Afghans refugees who are in all Living in the parts of the world are being asked to return to their homeland, along with their other fellow citizens participate in happiness and prosperity of Afghanistan.

ومن الله توفيق
